Dear U.S. Agency,

We have an historic opportunity to cap global warming pollution and put people back to work unleashing America's green energy economy. The House is about to vote on the Waxman-Markey American Clean Energy and Security Act, HR 2454. This historic bill will invest in America, create jobs, curb our global warming emissions, and free us from foreign oil. I strongly urge you to vote for the Waxman-Markey bill.

Sincerely,

Mr. Dylan Mulenburg
